Improving the Functioning of Financial and Institutional Mechanisms of Pension Systems in Mexico

Project Description

This TC seeks to support Mexican authorities to improve the functioning of some financial mechanisms of pension systems in Mexico, including the commission scheme within the defined contribution system, finding alternatives for the funding of the transition of state public pension systems, as well as alternatives to improve the interoperability of the multiple state pension systems of the country.

Investment Description

- Inter-American Development Bank (IADB)

Project contacts not available at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
