Investment Amount (USD)	\$ 0.25 million
Project Cost (USD)	\$ 0.25 million

IADB-ME-T1466

Strengthening Process Quality in Public Childcare Centers in Mexico: Developing and Piloting a

### **Project Description**

The objective of this TC is to support the Mexican Social Security Institute (IMSS) and other public childcare providers to develop a system of quality assurance that includes (i) on-the-job training and a mentoring strategy for caregivers; and (ii) a rapid quality assessment tool to routinely monitor process quality. Emphasis will be placed on the design of hybrid strategies that combine in-person and remote support; have a strong experiential (practical) training component, guided by a mentor; and primarily focus on promoting and improving caregiver-child interactions in the performance of all types of activities and routines in the childcare center.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
