Project Description

The overall objective of the project is to put evidence-based technology in the hands of caregivers for the diagnostic and promotion of child development outcomes in the 0 to 3 age group. The specific objectives are two:1) To rigorously evaluate the effectiveness of a digital parent support model, which promotes caregiver-child interaction and enriched care environments; and 2) to rigorously evaluate an application which allows for prompt and systematic assessments, personalized interventions, and support to vulnerable and marginalized early childhood populations.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
