Investment Amount (USD)	\$ 0.37 million
Project Cost (USD)	\$ 0.37 million

IADB-ME-T1469

Early Childhood Development (ECD) during the COVID-19 Pandemic

### **Project Description**

The overall objective of the project is to put evidence-based technology in the hands of caregivers for the diagnostic and promotion of child development outcomes in the 0 to 3 age group. The specific objectives are two:1) To rigorously evaluate the effectiveness of a digital parent support model, which promotes caregiver-child interaction and enriched care environments; and 2) to rigorously evaluate an application which allows for prompt and systematic assessments, personalized interventions, and support to vulnerable and marginalized early childhood populations.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
