IADB-ME-T1478

Insertion into Global Value Chains and Investment Promotion in Mexico

Project Description

The main objective of this TC is to contribute to the economic development of Mexico, particularly in the South-Southeast of the country, through the design and development of activities to facilitate and promote trade and investment. The specific objectives are: (i) to strengthen insertion of the national productive apparatus into global value chains and (ii) to attract foreign direct investment to Mexico.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
