---

### Project Description

The objective of this TC will be to support the design and implementation of a pilot initiative aimed at transforming skills training through the implementation of new training models and disruptive methods that endow Mexican youth with the necessary digital cloud computing skills. This initiative will promote Mexican youth engagement in digital economy and support the southern states region's economic development. It will provide strategic knowledge by enabling an impact evaluation of the new training model, generate awareness raising campaign of the model and technical note to disseminate best-practice and lessons learned in terms of digital skills training. These actions will be targeted to youth aged 23 to 29 across the nation with an emphasis on southern states of Mexico.

### Contact Information

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
