Borrower	Government of Mexico
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.18 million
Project Cost (USD)	\$ 0.18 million

Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to strengthen the institutional capacities of state governments in Mexico (subnational level) to promote a more favorable business environment through enhanced regulatory systems and digital capabilities. To achieve this, the TC focuses on three specific objectives: (i) supporting the implementation of the Virtual Document Manager (VDM) by integrating state procedures that consume data generated by state or national institutions; (ii) initiating the integration of procedures managed by municipal entities, laying the groundwork for the vertical integration of the VDM; and (iii) generating common protocols that facilitate the flow and use of data across the three levels of Mexican government.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
