Project Description

According to the IADB, the general objective of this Technical Cooperation (TC) is to strengthen access to and quality of maternal health services provided by the Mexican Social Security Institute (IMSS). The specific objectives are: (i) support for breastfeeding; and (ii) strengthening maternal-fetal screening to identify women at higher risk of maternal morbidity and mortality and to target interventions for this group.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
