Project Description

The overall objective of this Technical Cooperation (TC) is to support the digital transformation of the ALEPH system through the development of an integrated, interoperable, and automated platform that consolidates, standardizes, and analyzes data from multiple institutional sources. The platform will provide advanced analytical tools and user-friendly services for internal and external stakeholders, enabling reliable and traceable labor market information flows to support evidence-based decision-making, policy monitoring, and transparency.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
