Community Health Program for Rural Municipios

IADB-NI-L1095

Quick Facts

Countries	Nicaragua
Specific Location	North Caribbean, Jinotega, Matagalpa, Dry Corridor Region
Financial Institutions	Inter-American Development Bank (IADB)
Status	Active
Bank Risk Rating	B
Voting Date	2016-06-23
Borrower	Ministry of Health
Sectors	Education and Health
Investment Type(s)	Loan
Investment Amount (USD)	$ 45.00 million
Project Cost (USD)	$ 103.20 million

Project Description

This project aims to reduce health disparities and accelerate reductions in maternal and infant morbidity and mortality in priority Local Comprehensive Health Care Systems (SILAIS) in the North Caribbean, Jinotega, Matagalpa, and the Dry Corridor Region, specifically by broadening and improving access to and coverage of high-quality health promotion and health care services under the family and community health model.

The most relevant socio-environmental risks are related to the operations stage of the primary hospitals as follows: greater demand for power and potable water, water quality, and sanitation; effluent discharge from the hospital; generation of hazardous solid waste from hospitals; and occupational health and safety for employees, patients, and visitors.

Investment Description

- Inter-American Development Bank (IADB)

The program is financed through an investment loan of US$45 million drawn from the IADB's Ordinary Capital (60%) and the Fund for Special Operations (40%). The Government of Nicaragua will continue contributing treasury resources through the general budget of the Republic for an estimated US$57.7 million to finish covering the cost of care in the priority area during the program period, as well as US$483,480 to finance the maintenance of the investments financed under this operation. The total cost of the program is US$103.2 million.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
