Project Description

The objective of this Technical Cooperation (TC) is to strengthen the employability of rural youth populations in Nicaragua and therefore to improve their economic opportunities. The TC aims at contributing to the creation and strengthening of economic linkages between targeted youth populations and high value added supply chains such as certified organic products and fair trade products. To this end, the TC intends to consolidate and expand a technical education model, targeting rural youth populations in Nicaragua, particularly in the northern and western (Madriz, and Nueva Segovia) regions and RACCS territory, where educational and economic opportunities are highly limited or null and an extreme poverty is prevalent, affecting over 50% of the populations.

Investment Description

- Inter-American Development Bank (IADB)

This IDB project provides technical assistance funded through the Japanese Special Fund, Poverty Reduction Program (JPO).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
