<b>Investment Type(s)</b>	Grant
<b>Investment Amount (USD)</b>	\$ 0.80 million
<b>Project Cost (USD)</b>	\$ 0.80 million

### Project Description

From the IDB: "The objective of this technical cooperation is to support the economic integration of Nicaragua, through pre-feasibility and feasibility studies for the development of the Bluefields international port, as part of a multimodal logistic corridor of national and international relevance, and the formulation of a national cargo logistics plan. The pre-investment studies of the port, will analyze the technical, socio-environmental, economic, financial, and institutional feasibility of the project and its connections, and the benefits of its connection to a multimodal logistics corridor, derived from regional integration such as scale, attracting investment, access to global markets and goods and services at more competitive prices. These connections are fundamental to make a decisive advance in the integration and territorial cohesion of Nicaragua, contributing to the reduction of asymmetries at both national and regional levels. The National Cargo Logistics Plan (PNLOG) will establish a comprehensive policy and action framework for the development of logistics corridors for national and regional integration, promoting innovative financing schemes in these corridors."

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
