Project Description

This funding responds to Hurricane Otto, which hit Nicaragua at the end of November 2016, causing injuries and damage in 4 departments and 14 municipalities. The technical cooperation aims to support Nicaragua in humanitarian action to support those affected in the Región Autónoma del Caribe Sur and the departments of Río San Juan and Rivas. This will include provision of food, potable water, medicine, transportation and construction materials for emergency shelters for those displaced.

Investment Description

- Inter-American Development Bank (IADB)

This non reimbursable technical cooperation comes from Developing Member Countries of the Bank Affected by Natural Disasters.

It breaks down to $65k for water, medicine and other provisions (rice, beans, oil, etc); $120k for materials for emergency shelters; and $15k for other expenses.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
