## Project Description

According to the bank, the objective of the project is to support the strengthening of the competitiveness of Nicaragua's external trade by modernizing the land border crossings of El Espino and Las Manos on the border with Honduras, providing them with infrastructure, systems and equipment. Strengthen the transport infrastructure, which guarantees the permanent connection of the productive sectors to the domestic and export markets, with special emphasis on the Mesoamerican region.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
