Investment Amount (USD)	\$ 0.15 million
Project Cost (USD)	\$ 0.15 million

IADB-NI-T1304

Analysis of the Nutritional Status of Student Populations on the Caribbean Coast

Project Description

The objective of the Technical Cooperation is to assess the nutritional status in vulnerable school populations in Nicaragua, affected in 2020 by the COVID-19 pandemic and two hurricanes. Resources from the TC will be used to finance a survey of beneficiaries of the Comprehensive School Nutrition Program (PINE) on Nicaragua's Caribbean coast. The TC will support the design and development of a diagnostic of the nutritional status and practices of school-aged children beneficiaries of PINE.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
