<b>Status</b>	Approved
<b>Bank Risk Rating</b>	U
<b>Sectors</b>	Education and Health, Technical Cooperation
<b>Investment Type(s)</b>	Advisory Services
<b>Investment Amount (USD)</b>	\$ 0.30 million
<b>Project Cost (USD)</b>	\$ 0.30 million

### Project Description

The objective is to create capacity to use technologies to provide high-quality education. The specific objectives are two. First, strengthen the capacity to take advantage of connectivity for educational purposes. Second, create a school that uses educational technologies as an integral part of learning, which can serve as a model for the transformation of education in Nicaragua. Specifically, one or two educational centers will be chosen that are in a place where there is broadband, but that do not use it for educational purposes.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
