| **Status** | Proposed |
| **Bank Risk Rating** | U |
| **Sectors** | Education and Health, Technical Cooperation |
| **Investment Type(s)** | Advisory Services |
| **Investment Amount (USD)** | $ 0.30 million |
| **Project Cost (USD)** | $ 0.30 million |

## Project Description

The objective is to create capacity to use technologies to provide high-quality education. The specific objectives are two. First, strengthen the capacity to take advantage of connectivity for educational purposes. Second, create a school that uses educational technologies as an integral part of learning, which can serve as a model for the transformation of education in Nicaragua. Specifically, one or two educational centers will be chosen that are in a place where there is broadband, but that do not use it for educational purposes.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
