PROADAPT Nicaragua: Building Climate Resilience in the fine Cocoa and Honey Sect

Project Description

This project's objective is to support small and medium-sized Nicaraguan fine cocoa and honey producers in developing greater resilience to climate change. The objective will be attained by facilitating access to: (i) information about climate change in a suitable format; (ii) technological solutions to climate change; and (iii) credit to purchase those solutions.

Investment Description

- Inter-American Development Bank (IADB)

The total cost of this Technical Cooperation is USD $733,297.

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
