Pilot Project: Access to Water and Sanitation to Dispersed Rural Communities -Phase II

Project Description

The objective of this pilot program is to provide a sustainable local source of water supply to the community of Nueva Cucungara. Also the community and the Regional Government (GORE) Piura will be trained in the operation and maintenance of the infrastructure built through the construction of a new water supply well. The specific objective is to provide the community with an underground water well for its supply.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
