IADB-PE-L1228

Program for the Transformation of Health Management and Health
Care Services

Quick Facts

Countries	Peru
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Peru
Sectors	Education and Health
Investment Type(s)	Loan
Investment Amount (USD)	\$ 125.00 million

Project Description

The objective of the operation is to generate a transformation of health services in Peru, starting with the introduction of a new model of sanitary management focused on efficiency, and a new model of health care focused on prevention and continuity of services. This will be achieved through the reorganisation of the public healthcare network of the Ministry of Health and of two regional governments, aimed at the provision of services with high quality, access and efficiency in the use of resources.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
