Project Description

According to the IADB, the program's general development objective (GDO) is to achieve adequate access for the population to quality civil registry and identification services nationwide. The operation will pursue this objective by reducing the transaction costs imposed on Peruvians for obtaining Registry and Identification Services (SRI). To achieve this objective, the following Specific Development Objectives (SDO) will be sought: (i) expand the coverage of identification and civil registry services; and (ii) increase the efficiency of identification and civil registry services.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
