Project Description

This project provides technical advising for how to improve rural infrastructure in Peru. Specifically, the project aims to promote infrastructure designed to be inclusive to isolated and poorer populations in rural areas, connect the rural road network with certain "logistics corridors" (areas with high economic output), maintain rural infrastructure, decentralize infrastructure administration, and establish management to oversee the project at large.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
