Early Warning System

IADB-PE-T1382

Support for the development of the labor force in the mining sector in Peru

Quick Facts

Countries	Peru
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Government of Peru
Sectors	Mining, Technical Cooperation
Investment Type(s)	Grant
Investment Amount (USD)	$ 0.17 million
Grant Amount (USD)	$ 0.17 million
Project Cost (USD)	$ 0.17 million

Project Description

The general objective is to contribute to improving the system of workforce development in Peru. Specifically, support will be given to developing the Mining Sector Skill Council to close skills gaps in the sector. Thus, the definition of the governance of this council and its functioning will be supported. It will also contribute to the development of the National Qualifications Framework and to start its implementation through the qualifications made by the Mining Sector Skill Council.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
