Early Warning System Support to the Urban Transport System of Lima (II)

IADB-PE-T1387

Project Description

The general objective of the TC is to support the National Government authorities in coordinating and supervising the project. The specific objectives are: (i) to provide technical support in the review of definitive studies and pre-investment studies; (ii) to provide technical assistance in the implementation of involuntary resettlement and communication plans; and (iii) to conduct additional studies of Line 2. The agencies involved are: Ministry of Transport and Communications (MTC), Autonomous Electric Train Authority (AATE), Supervisory Body for Investment in Public Transport Infrastructure (OSITRAN), and the Municipalities of Lima and Callao.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
