Investment Amount (USD)	$ 0.12 million
Project Cost (USD)	$ 0.12 million

Project Description

The objective of this Advisory Service is to support IDB Invest's Sustainability Week in Peru in particular concerning sustainable infrastructure to promote the exchange of ideas, priorities and successful cases. It will provide capacity building and training to foster the inclusion of environmental and social criteria in infrastructure projects as well as the financing structures for such investments. The regional workshop will gather: (i) public authorities, financiers and private project sponsors from the Region including those from on Mexico, Brazil, Colombia and Peru (ii) international consulting firms, in particular UK firms, that can provide high quality services to project developers in the area of sustainable infrastructure, and (iii) IDB Invest officials and external experts to foster future investments for sustainable infrastructure in Peru and in the broader region of Latin America and the Caribbean.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
