Applying artificial intelligence (AI) and machine learning to upgrade the IP administration system in Peru

Applying artificial intelligence (AI) and machine learning to upgrade the IP administration system in Peru

Quick Facts

Countries	Peru
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Government of Peru
Sectors	Law and Government, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.50 million
Project Cost (USD)	$ 0.60 million

Applying artificial intelligence (AI) and machine learning to upgrade the IP administration system in Peru

Project Description

The objective of this technical cooperation (TC) is to enhance the institutional capacity of the National Institute for the Defense of Free Competition and the Protection of Intellectual Property (INDECOPI) by providing the Intellectual Property (IP) examiners modern technological tools that permits management and organization of the information generated in the registration process to enhance the predictability in the decision making and to decrease the response time.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
