Early Warning System

IADB-PE-T1445

Support for the Development of Freight Transport and Logistics Investments and Planning

Quick Facts

Countries	Peru
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Peru
Sectors	Technical Cooperation, Transport
Grant Amount (USD)	$ 0.56 million

Project Description

The objective of this Technical Cooperation (TC) is to support the Ministry of Transport and Communications in the design of planning and prioritization tools for the management of logistic assets. To this end, the TC will finance the update of the National Logistics Plan, market analysis and plans for freight transport and logistics projects, including virtual container yards, truck centers, and logistics platforms. It will also support the strengthening of the client's capabilities in the areas of planning and management of freight transport and logistics infrastructures.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
