Good Practices in Public-Private Partnsrships (PPP): Program of Wastewater Treatment Plants in Peru

Project Description

The objective of this TC is to support the preparation and structuring of Public-Private Partnerships (PPP) projects in the wastewater treatment sector in Peru, through the implementation of best practices that can also be replicated in the rest of the the region. Specifically, this TC is developed to provide support to the Private Investment Promotion Agency - PROINVERSION, in the supervision and promotion of a Program of co-financed private initiatives aimed at the Treatment of Wastewater for final disposal or reuse in: (i) Cusco; (ii) Cajamarca; (iii) La Libertad; (iv) Canete; (v) Chincha and (vi) Tarapoto, and in the structuring of one of those 6 (six) projects. Additionally, this TC will try to consolidate IDB support for Proinversion projects, and ensure that these good practices can be replicated in the region.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
