Hybrid Learning in Peru: Evaluating the Use of the Platform Conecta Ideas at scale

Project Description

This project seeks to evaluate the impact of the Conecta Ideas platform on math learning in Peru when used at scale. In addition, the project will generate evidence on cost-effective strategies to promote the use of learning platforms, a fundamental input for the countries of the region that are seeking both to address the COVID-19 emergency and promote the use of effective hybrid learning models.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
