---

### Project Description

The objective of this TC is to learn which skills, measured pre-COVID-19, have been most conducive for female entrepreneurs to respond to the economic crisis. The TC will use innovative telephone survey methodologies to measure which skills and what type of training enable female entrepreneurs to better adapt to economic volatility, providing key information for designing training programs aimed at reactivating earnings and productivity.

### Contact Information

*\*\*Project contacts not available at the time of disclosure.\*\**

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
