Phase III of the Support for the implementation of Peru's National Strategy on Forests and Climate Change (ENBCC)

Project Description

(a) Continue with the implementation of the National Strategy on Forests and Climate Change (ENBCC), contributing specifically to the following strategic actions: (i) Promote community forest management, articulated with the development vision embodied in the life plans of each community; (ii) Promote the development of incentives for forest conservation, such as conditional direct transfers and other mechanisms, particularly those associated with payments for ecosystem services; and (iii) Complete the pending titling of native and peasant communities, in accordance with their regulatory framework; and (b) fill gaps in REDD+ readiness as specified in the FCPF Methodological Framework.

Investment Description

- Inter-American Development Bank (IADB)

Project contacts not available at the time of disclosure.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
