Countries	Peru
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Perú
Sectors	Education and Health, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.20 million
Grant Amount (USD)	$ 0.20 million

Project Description

The objective of this TC is to support the MINEDU in the design and execution of PE-L1268, which is expected to be designed and approved in 2022, and achieve eligibility in 2023 to start its execution in the shortest possible time. In Peru, since 2017 the National System of Multiannual Programming and Investment Management (Invierte.pe) seeks to guide the use of public resources destined for investment for the adequate provision of services and infrastructure. In this context, any investment program needs to be designed following the terms and standards imposed by the system. The design or formulation requires specialized expertise to achieve the feasibility or approval of the program by Invierte.pe.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
