Support for the preparation of Program to improve the comprehensive management of the urban solid waste service in Peru

Project Description

The objective of the technical cooperation (TC) is to support the Ministry of the Environment (MINAM) in the preparation of studies for the preparation and implementation of the Program to improve the comprehensive management of the urban solid waste service in Peru (PE-L1274). The projects included in PE-L1274 will be aligned with the National Plan for the Integral Management of Solid Waste (PLANRES) and the circular economy principles and waste recovery established by the General Law of Solid Waste and its regulations.

Support for the preparation of Program to improve the comprehensive management of the urban solid waste service in Peru

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
