Investment Amount (USD)	$ 0.35 million
Grant Amount (USD)	$ 0.35 million

Strengthening Sustainable Value Chains of Native Communities in the Peruvian Amazon.

Project Description

The objective of the technical cooperation (TC) is to strengthen the capacities of the indigenous community of Belgica, located in the Madre de Dios region next to the border with Brazil, for its insertion in the dynamics of regional sustainable development and transfrontier integration. This TC will contribute to improving the quality of life of families in the community of Belgica, who face high levels of poverty and malnutrition.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
