IADB-PE-T1562

Measuring the effectiveness of a low-cost post-secondary non-formal education program on advanced digital skills

### **Project Description**

According to the Bank's website, the objective of this non-reimbursable technical cooperation (TC) project is to generate knowledge for the region about the effectiveness of non-formal post-secondary education programs in advanced digital skills, generally known as "coding bootcamps". Specifically, it will seek to measure the impact of a bootcamp with a high potential to be scalable given its low cost.

#### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
