Project Cost (USD)	$ 0.60 million

Support for the identification and structuring of public-private synergies for environmental assets in the Peruvian Amazon

Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to support the identification of public-private synergies for the sustainable management of natural parks in the Peruvian territory of the Amazon Basin and to support the structuring and implementation of Public-Private Partnership (PPP) projects in these sectors. The technical cooperation will focus on these objectives by supporting the following activity: (i) support for the structuring of private participation projects in natural parks and conservation units with services related to public use and visits.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
