<b>Sectors</b>	Agriculture and Forestry, Technical Cooperation
<b>Investment Type(s)</b>	Advisory Services
<b>Investment Amount (USD)</b>	\$ 0.25 million
<b>Project Cost (USD)</b>	\$ 0.25 million

## Project Description

According to the IADB, this project aims to reposition Peru's main agricultural and livestock services. To promote sustainable agricultural development, partnerships will be encouraged with the private sector as well as with regional and municipal authorities. Additionally, the project will promote institutional coordination through public-private collaboration mechanisms and with subnational governments, strengthening the cooperative model. As a complement, the project seeks to enhance the capacities and skills of key officials.

## ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
