### Project Description

The overall objective of this technical cooperation (TC) is to support the Government of Peru in implementing a reform agenda aimed at fostering a more competitive internationalization of the country. This objective will be achieved by providing technical assistance to: (i) promote the design, coordination, and execution of policy measures, programs, and strategies aimed at strengthening the productive internationalization of the Peruvian economy, including the National Multisectoral Foreign Trade Policy (PNMCE), the National Competitiveness and Productivity Plan (PNCP), among others; and (ii) support the strengthening of technical capacities within the sectors involved in the implementation of public policies for productive internationalization.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
