### Project Description

According to the IADB, the main objective of Technical Cooperation (TC) is to support the strengthening and modernization of key public institutions essential for the functioning of the state apparatus, such as the National Registry of Identification and Civil Status (RENIEC), the Office of the Comptroller General of the Republic of Peru (CGR), and the National Center for Strategic Planning (CEPLAN) of the Presidency of the Council of Ministers (PCM). TC aims to contribute to the development of stronger, more effective institutions that are service-oriented toward citizens by improving management capacity, optimizing processes and systems that enable the expansion of digital identity, promoting the modernization of information systems and interoperability, and strengthening transparency and integrity in public administration.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
