Investment Amount (USD)	\$ 0.40 million
Loan Amount (USD)	\$ 0.40 million
Project Cost (USD)	\$ 0.40 million

Project Description

According to the IADB, the general objective of the TC is to strengthen the technical and institutional capacity of the Government of Peru, through the National Infrastructure Authority (ANIN), to structure an integrated disaster risk management model for priority river basins. The specific objectives are to: (i) support the development and optimization of studies and designs for integrated risk management programs; and (ii) enhance institutional capacity for the preparation, execution, and operation and maintenance of investments.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
