Investment Amount (USD)	\$ 0.20 million
Project Cost (USD)	\$ 0.20 million

Project Description

According to the IADB, the main objective of the Technical Cooperation (TC) is to support the strengthening of institutional effectiveness in Peru by optimizing the institutional capacities of key Peruvian government entities for digital transformation and the provision of citizen-centered public services through data-driven governance and the use of analytical tools, including artificial intelligence (AI). Among the key entities, the National Registry of Identification and Civil Status (RENIEC) stands out as the governing body of the country's identification and civil registry system, whose information and services are a fundamental enabler for the implementation of public policies, the provision of government services, digital interoperability, and the social and digital inclusion of citizens.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
