Project Description

According to the Inter-American Development Bank, the objective of this project is to help improve Panama's logistics performance by reducing regulatory and institutional restrictions that limit the country's performance in the following areas:

1. value added logistics services
2. logistics that support the agriculture sector
3. logistics that support regional trade.

The specific objectives of this project are to:

1. strengthen the legal and regulatory framework
2. consolidate the institutional framework for transport and logistics
3. strengthen the multisector planning and trade facilitation system.

This project is the third in a series of Bank funded support for reform in Panama's logistics and transport sector.

Early Warning System Project Analysis

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
