Project Description

The objective of the programmatic series is to help reduce gender inequality in Panama, through the effective and timely implementation of policies designed to enhance the physical, economic, and decision-making autonomy of women. This operation is the second in a series of two independent but technically linked single-disbursement operations under the programmatic policy-based loan modality. The objective of this second operation is to reduce gender inequality in Panama, by consolidating the regulatory and institutional framework to foster the physical, economic, and decision-making autonomy of women, and to improve capacity to manage gender policies.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
