Sustainable and Inclusive Agricultural Innovation Project

Project Description

The general objective is to improve agricultural income and food security of small and medium producers and their families, in different watersheds, with pro-gender and pro-diversity goals. The specific objectives are to increase the farms profitability, their environmental sustainability and their resilience to diverse shocks, through the following results: (i) Increase in agricultural productivity; (ii) Restoration of the productive base of agriculture (soil, water, functional biodiversity, tree cover); (iii) Productive diversification; and (iv) Better access of farmers to markets.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (Spanish).
