Project Description

According to the IADB, the general objective is to Support for Strengthening the Social Protection System in Panama. The project's general objective is to contribute to improving the quality of life of vulnerable populations in situations of dependency. Its specific objectives are to: (i) strengthen the social protection system's capacity to respond to shocks and (ii) protect populations in situations of dependency (early childhood, persons with disabilities, and older adults) from the risk of lags in development and functional dependency, while also promoting their productivity and protecting their caregivers.

Early Warning System Project Analysis

According to the IADB, this policy-based loan operation is not expected to generate significant and direct negative effects on the country's environment and natural resources. Therefore, it is excluded from the scope of the IDB's Environmental and Social Policy Framework, in accordance with the terms of paragraph 4.7 of this policy.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
