Project Description

According to the IADB, the general objective of the first project is to improve access to health services and financial protection in health for the Panamanian population. The specific objectives are: (i) to reduce fragmentation and improve coordination between the Ministry of Health (MINSA) and the Social Security Fund (CSS); (ii) to increase efficiency in pharmaceutical spending and the supply chain; and(iii) to expand access to resilient essential health services in indigenous and rural areas.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
