### Project Description

None provided at the time of disclosure.

The general objective of technical cooperation is to promote the social inclusion of people with intellectual disabilities through sport. The specific objectives are: (i) to promote and share knowledge and experiences with civil society, policy makers and government officials in relation to best practices in promoting social inclusion through sport, (ii) implementing the Unified Sport model and Young Athletes in 50 public and private schools in Panama and iii) generate knowledge about the effectiveness of sports-based interventions as a tool for social inclusion.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
