Project Description

The project aims to support the actions of the agenda for Water Security and its areas of relevance taking into consideration the effects of Climate Change (CC). To this end, the TC has the following specific objectives: (i) establish a strategic vision of CC, the Green Route 2050 with its corresponding action and investment plan, which will allow its decarbonization; (ii) support the formulation of the pre and feasibility studies prioritized in the PNSH-2015-2050 that allow increasing water supply in the face of CC challenge; and (iii) support the generation of agreements that allow for the positioning of projects and their implementation with the corresponding authorities and institutions.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
