Project Description

The objective of the Technical Cooperation is to support the strengthening of the management of social programs administered by the Ministry of Social Development through the implementation of digital innovations. Through the TC, technical inputs will be generated to improve the precision and automation of the mechanisms for identifying the beneficiary population of the conditional cash transfer programs and their consolidation in the Integrated Beneficiary Informatics Platform. Improving the quality of comprehensive early childhood care services provided in centers will also be supported by the TC through the development of digital platforms for quality management.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
