Support to promote solar renewable electricity generation in Panama

Quick Facts

Countries	Panama
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	U
Voting Date	2023-06-08
Borrower	Government of Panama
Sectors	Energy, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	\$ 0.25 million
Project Cost (USD)	\$ 0.25 million

Project Description

The objective of this Technical Cooperation (TC) is to promote the sustainability of the Panamanian electricity sector, through the development of solar renewable electricity generation in Panama. The specific objectives are: (i) demonstrate the feasibility of promoting distributed solar generation through a subsidy redirection program; (ii) the development of a national solar microgrid program, integrated into the national universal access plan.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
